TEXAS DUPLICATOR SYSTEM

KEY

PART NUMBER : AKK164

APPLICATION : Ford (4C) RED Copy Key

TECHNICAL : Texas RED (4C) Copy Key

PROGRAMMING : AD75 only

AD75

The AD75 Transponder Duplicating System has been developed to keep up to date with the constant increase of vehicles equipped with transponders. It can clone, display the code of fixed transponders and identify encrypted transponders.

The AD75 is easy to use, and can be updated using the RS232 or USB interface from any PC.

Transponders that are covered are TEMIC, PHILIPS, MEGAMOS, NOVA & TEXAS.

MVP KEY PROGRAMMING SYSTEM

The MVP is here...

BUY a TOKEN...

Program a Car...

It's that simple...

MULTI VEHICLE PROGRAMMER

MVP KEY PROGRAMMING SYSTEM

MVP (Multi Vehicle Programmer) is the new Key Programming System from Advanced Diagnostics which is based on the Worlds premier Key Programming System, AD100, but with an extremely small purchase price, and the ability to pay as you go for key programming.

The World Leaders in Transponder Key Programming have again led the way and raised the benchmark with the revolutionary 'Pay As You Go' key programming system, using electronic tokens which can be purchased easily and quickly on the internet.

The MVP is supplied with all available software applications and easily updated with new software from the internet, at no cost, ensuring the technician always has the latest developed software.

This NEW system uses electronic tokens to program vehicles, one token per vehicle, and along with never having to purchase software again allows anyone who wants to offer key programming a step in the door ... at a price any security professional can afford.

OBD DIAGNOSTIC PORT TESTER

5

The ADC116 OBD DIAGNOSTIC PORT TESTER is the easiest and quickest way to check that the OBD port has 12 volts and good ground connections.

It also checks the PIN 7 line on VW/AUDI/SEAT/SKODA vehicles, to make sure that if an aftermarket radio is fitted, they have wired the system correctly otherwise damage can be done to any diagnostic equipment that is connected to it.

A great cost effective time saver and stops damage to diagnostic equipment.

ADC116 OBD DIAGNOSTIC PORT TESTER

VW/AUDI/SEAT/SKODA
PIN 7 CHECK

OBD SOCKET POWER &
EARTH CHECK

Technical Details

- USER FRIENDLY
- PORTABLE
- CAN BE USED ON ALL MAKES
- BULB INDICATORS
- POWER CHECK
- GROUND/EARTH CHECK
- PIN 7 CHECK FOR VW/AUDI/SEAT & SKODA
- SAVES TIME AND MONEY

AD30 TRANSPONDER COIL TESTER

5

AD30 TRANSPONDER TESTER

AD30 TRANSPONDER COIL DETECTOR

The AD30 Transponder Coil Detector has been designed to assist with the diagnosis of all Immobiliser systems using transponder technology.

One of the critical components of an immobiliser system is the coil or antenna fitted around the ignition barrel.

When diagnosing problems with the immobiliser system, there is always the question of "is the immobiliser antenna transmitting a correct signal to power the key transponder".....Now by using the AD30 this question can be quickly and easily answered, saving valuable time and money.

The AD30 is placed near the ignition barrel in the steering column and provides a visual and audible indication of antenna power. Additionally on certain vehicles, by switching the ignition on, a further indication of a transponder signal being sent by the ignition key and received by the antenna can also be provided.

If you already have Advanced Diagnostics Key Programming equipment the AD30 is an essential addition to your tool kit that will earn its keep within a few jobs.
